

```
#include <iostream>
#include <cstdlib>
#include <ctime>

using namespace std;

int main()
{
    srand((unsigned int) time(NULL));

    int number = (rand() % 100) + 1;

    int guess = 0;

    do
    {
        cout << "Number guessing game";

        cout << "Enter Guess from (1-100): ";
        cin >> guess;

        if (guess > number)
            cout << "The Number you Gussed is lower!" << endl;
        else if (guess < number)
            cout << "The number you Gussed is higher!" << endl;
        else
            cout << "Hurry! Number guessed sucessfully You won!" << endl;

    } while (guess != number);

    return 0;
}
```
